

Developers

About

Information for developers who wish to create custom applications based on FreeSWITCH or contribute improvements and bug fixes back to the FS community. See also: [Contributing Code](#).

Github Repository

For Committers

First, create a Github account

Next, create a fork of github.com/signalwire/freeswitch in Github

Finally, clone the repo:

HTTPS

```
git clone https://github.com/${YOUR_USERNAME}/freeswitch.git
```

YOUR_USERNAME is your Github user name. Git will prompt you for your password when required.

SSH

```
git clone ssh://git@github.com:${YOUR_USERNAME}/freeswitch.git
```

Example ssh_config for those who need it. (Most people do not need this)

Example ssh_config

```
host github.*
  IdentityFile ~/.ssh/my_pubkey_file
```

For Non-Committers

Execute the following command to clone the repository:

```
git clone https://github.com/signalwire/freeswitch.git
```
