## macOS FreeSWITCH™ Obsoleted Releases

FreeSWITCH is not tested on obsoleted releases. Apple and Homebrew dropped support and no longer issues security patches. You may work around issues if you use the manual installation instructions with your own modifications.

| MacOS                  | FreeSWITCH™<br>V.R.M*    | Final<br>Test        | Status        | Reason                                  |
|------------------------|--------------------------|----------------------|---------------|---|
| Catalina 10.<br>15.7   | 1.10.7 Public<br>Release | May 14,<br>2022      | Bad Build     | #1367, #1474, #1497<br>, #1500          |
| Mojave<br>10.14.6      | 1.10.7 Public<br>Release | November<br>25, 2021 | Bad Build     | Unsupported by<br>Apple and<br>Homebrew |
| High Sierra<br>10.13.6 | 1.10.5 Public<br>Release | December<br>26, 2020 | Bad<br>Prereq | Homebrew Lua no longer builds           |
| Sierra<br>10.12.6      | 1.10.2 Public<br>Release | December<br>31, 2019 | Bad Build     | Unsupported by<br>Apple and<br>Homebrew |
